A new long awaited addition to the best selling RYA Racing series. RYA Laser Handbook is the most up-to-date book on this very popular class. Covering the three rig options - Standard, 4.7 and Radial make this book a must for anyone interested in Laser sailing.

Chapters include manoeuvring, upwind and downwind technique, care & maintenance, body weight & nutrition and sailing theory.

Written by Paul Goodison, one of the world's best Laser sailors, who is tipped to win a medal at the Olympic Games in Beijing.

- **Most up-to-date Laser book on the market**
- **International appeal**
- **Brilliant full colour photography**
- **Clear technical drawings and top tips**
